Career Objective

Final-year Computer Science and Engineering student focused on React and Next.js development, with hands-on experience building frontend features, reusable UI components, and REST API-integrated web apps. Comfortable working independently in autopilot mode, sharing clear progress updates, and delivering maintainable code for remote teams.

Education

Bachelor of Engineering in Computer Science and Engineering(B.Tech) NBKRIST College (Autonomous), Vidyanagar, Tirupati	2022–2026 Andhra Pradesh
Intermediate(MPC) Narayana Junior College, Gudur, Tirupati	2020–2022 Andhra Pradesh
Secondary School Certificate (SSC) Narayana EM High School, ISKON City, Nellore	2019–2020 Andhra Pradesh

Development & Technical Skills

- **Programming & Web:** JavaScript, TypeScript, HTML, CSS, Responsive UI Development, Component-based Architecture
- **Frameworks & Libraries:** React, Next.js (App Router), React Router, Tailwind CSS, shadcn/ui
- **Frontend Engineering:** Vue.js to React migration familiarity, reusable component development, clean code and team convention alignment
- **Backend & Integration:** REST API Integration, SQL, Supabase (Authentication, Realtime DB, Storage), Firebase (Basic)
- **Automation & AI Tools:** n8n (Workflow Automation, API Pipelines, Scheduling), OpenAI (ChatGPT), Anthropic (Claude), Grok, DeepSeek, Ollama (Local Models), Google AI, Text-to-Speech for Automation Workflows
- **Work Style:** Independent execution, proactive progress communication, blocker reporting, documentation-first updates
- **Tools & Others:** Git, GitHub, FFmpeg, Basic Understanding of Deployment and Hosting
- **Soft Skills:** Problem solving, time management, team collaboration, fast learner, adaptability, communication.

Work Experience

UI/UX Design Intern Zoro Innovations - View Certificate	July 2025 – August 2025
• Designed user interfaces and experiences for campus administration and student management systems using industry-standard tools and methodologies.	
Interview Coordination Support (Freelance) IT Hiring Process Support	2024 (4-Month Freelance Assignment)
• Scheduled interviews by matching candidate availability with interviewer time slots.	
• Managed candidate follow-ups and interview status updates with clear communication.	

Certifications

• Google Cloud Presents Agentic AI Day 2025 – Hack2skill	Certificate
• Critical Thinking and Problem Solving – LinkedIn Learning	
• Python Programming – Coursera	
• Web Development Fundamentals – Udemy	

Projects

1. Bhagavad Gita Multilingual Video Automation	GitHub YouTube Instagram Facebook
• Built new React/Next.js frontend features for multilingual verse browsing and publishing flows with reusable UI components.	
• Technologies: Next.js (App Router), React, TypeScript, Tailwind CSS, JSON-based verse data handling.	
• Tools/Platforms: n8n, Google Text-to-Speech, Google AI workflows, FFmpeg, API-driven publishing to YouTube/Instagram/Facebook.	
2. Kaveri Traders 3D Business Website	GitHub Web App
• Built a React/Next.js business website from scratch with reusable sections, responsive layouts, and conversion-focused UX.	
• Technologies: Next.js 16 (App Router, static export), TypeScript, Tailwind CSS v4, Framer Motion, Lenis.	
• Tools/Platforms: GitHub, GitHub Pages deployment, clear CTA integration, and maintainable component structure.	
3. NBKRIST Student Portal	GitHub Web App
• Built a React-based student portal with modular pages and API-integrated flows for academic data, attendance, and results.	
• Technologies: Vite, React, TypeScript, React Router, Tailwind CSS, shadcn/ui, Supabase (DB + Auth).	
• Tools/Platforms: Python data scripts, GitHub, GitHub Actions deployment, and structured progress updates during iteration.	
4. Sign Language Translator AI	GitHub
• Built a browser-based React application with real-time gesture detection and clear component separation for maintainability.	
• Technologies: Vite, React, TypeScript, TensorFlow.js, MediaPipe Hands, Tailwind CSS.	

- **Tools/Platforms:** On-device inference, webcam live detection, and iterative testing across model and UI workflows.
